

Fostering Change

NETWORK

Dear Alumni Success,

On behalf of Fostering Change Network, I am reaching out to extend a FREE membership to our professional organization. Fostering Change Network LLC is a company I started in 2012 to create a safe and supportive space where alumni professionals of foster care can promote their business endeavors, get feedback from other alumni on how to build and expand their businesses (and non-profits) as well as connect professionally and personally with other adult professionals from foster care.

As an professional alumna of foster care myself, I know that there are so many of us making a difference in our communities in different ways; however, much of what people think of foster care and those of us from it, is negative. As we support each other in building and expanding our professional endeavors, we will change the negative stigma associated with individuals in and from foster care. **Together we will change the world!**

FCN Members will receive access to:

- Quarterly Webinars by successful Alumni of foster care
- One-on-One Alumni Coaching
- Membership Benefits- discounts at retailers, on travel and business services
- Start-up Business School for Former Foster Youth through a partnership with **Foster Founders**, a company founded and led by Alumna, Annette Lilly
- Invitations to alumni-led social networking events such as the Annual Alumni Powerhouse Networking Conference (APNC)

Your joining would be an asset to our membership. If you're interested or have any additional questions, please contact us at 800-660-2338 ext. 1 or sign up online at www.fosteringchangenetwork.com.

Sincerely,

Shalita O'Neale
Founder and CEO
