

## Sadly Forgotten

Was your love real?  
Or just a fallen emotion in disguise?  
Undressing  
And  
Peeling away  
The layers  
I recognized  
The love you were displaying  
Wasn't true  
Cautiously  
Hidden behind  
A pile of  
I LOVE YOU'S  
You presented yourself as a Dream  
I stepped out of my scene  
And presented myself as your Angel  
Immediately  
You took my hands and allowed my wings  
To carry us to the clouds  
Embraced in a tangled fantasy  
Holding tight to thoughts of reality  
Tranquility fed your insatiable hunger  
You quenched my thirst with affection  
Craving each other we became lovers  
As magical as it was  
It didn't last forever  
When that cloud drifted the heavens  
You slipped out of my hand  
Into the arms of the devil  
Giving her your nourished soul  
With promises of ecstasy  
Throwing away our fantasy  
Along with hopes of reality  
As I patiently awaited your return  
On top of that cloud  
Feeling the wrath of Hell's burn  
I was left alone  
Hurt and broken  
And  
Sadly forgotten
